

AQUA-AEROBIC SYSTEMS, INC.
A Metawater Company

Get To Know Me Seth Antczak

What is your new position at Aqua-Aerobic Systems?

Research and Development Technician

Tell us a little bit about yourself and your family.

My wife and I met in the 6th grade, and got married when we were 19. Since then, we've lived in a few states and had our daughter, Maylee, and a baby boy on the way, due in August.

What are your past education and work experiences?

I graduated from Harlem High School, completed the NPFD Firefighter Academy and obtained my certificates in fire prevention and EMT from Mercy Health. I've received a lot of training in water treatment systems at another large water technologies company, and have serviced over 20 industrial plants in 7 different states. I joined the fire service at 17 but transitioned to the water field a few years after.

How about your hobbies and things outside of work that interest you?

I enjoy spending the majority of my time with family, playing guitar, exercising, spending time in nature, hunting/fishing, and studying the bible, theology, history, and science. My wife and I are very active in our church, FBC Rockford, IL.

What is something that you have always wanted to do?

To grow a generational family. I have enjoyed seeing my little family grow and I look forward to seeing our family prosper and leaving behind a legacy.
